Here are a series of questions to explore in this week's tutorial:

1. Name the least and most important benefit of Critical Thinking, in your opinion.

2. When analysing an argument, what do you need to consider?

3. What methods can be used by an author to persuade a reader?

4. Give one of the six aspects recommended by Chatfield (2018) when evaluating a source and explain why it is important.

5. Choose one of the models of Critical Thinking and explain which has been the most helpful step in your research?

6. Why is it important to check the positioning of information?

7. Do you have any questions regarding the mock or final exam?
